

Revised Checklist of Lancashire and Cheshire True Bugs (Hemiptera: Heteroptera)

Steve Judd steve.judd@liverpoolmuseums.org.uk May 2022

Twelve years have passed since the last Heteroptera county checklist for Lancashire and Cheshire was published. This added 45 first species records to the previous regional checklist, published 24 years earlier (Judd, 1986 & 2010). Over the last decade, an upsurge of interest in recording true bugs, has resulted in a further 44 species being recorded for the first time from North West England. Fifty-five species were new to Lancashire and 28 were new to Cheshire with a further 27 first post-1970 records for Lancashire and nine for Cheshire. (Judd, Bentley, Brighton, & Steeden 2022). In total, there have been an impressive 162 first vice-county species records for the region over the last decade, resulting in 330 species recorded for Lancashire (255 localised for VC59 South Lancashire and 241 localised for VC60 West Lancashire) and 321 species recorded for VC58 Cheshire. In 2022, these numbers amounted to 52.0% of the current British checklist for Cheshire and 53.5% for Lancashire. The numbers of species in 2022, not recorded since 1970, was reduced to 55 and 37 respectively.

The nomenclature and systematic sequence in the checklist follows Aukema & Rieger (1995-2013) with Lygaeoidea families following Henry (1997). The following categories are used:

C Cheshire post 1970	[L] Lancashire pre-1970 - unlocalised to VC59 or VC60.
[C] Cheshire pre-1970	
L Lancashire post 1970	Most records published in Massee's (1955) vice county distribution table. 59 VC59 South Lancaster (Lancashire south of the River Ribble) post 1970; [59] VC59 South Lancaster pre 1970; 60 VC60 West Lancaster (Lancashire north of the River Ribble) post 1970; [60] VC60 West Lancaster pre 1970.

A huge thank you to everyone who has contributed records. Please send details of all new County and Vice County records for Lancashire and Cheshire. These will be added to the checklist and highlighted.

LYCTOCORINAE LYCTOCORINI													
<i>Lyctocoris campestris</i> (Fab.)	[C]	L	59	.	PIESMATIDAE				.				
LYCTOCORINAE XYLOCORINI													
<i>Xylocoris galactinus</i> (Fb.)	C	L	59	.	<i>Piesma maculatum</i> (Lap.)	C	.	.	.				
<i>Xylocoris cursitans</i> (Fall.)	[C]	[L]	.	.	<i>Parapiesma quadratum</i> (Fb.)	C	L	59	60				
CIMICIDAE CIMICINAE													
<i>Cimex lectularius</i> L.	[C]	[L]	.	.	BERYTIDAE				.				
REDUVIIDAE													
EMESINAE PLOIARIOLINI													
<i>Empicoris culiciformis</i> (De Geer)	C	[L]	.	.	<i>Neides tipularius</i> (L.)	.	L	59	60				
<i>Empicoris vagabundus</i> (L.)	C	L	59	60	BERYTINAE BERYTINI				.				
REDUVIINAE													
<i>Reduvius personatus</i> (L.)	C	[L]	[59]	.	<i>Berytinus (Berytinus) minor</i> (H.-S.)	C	L	59	60				
HARPACTORINAE HARPACTORINI													
<i>Coranus subapterus</i> (De Geer)	C	L	59	.	<i>Berytinus crassipes</i> (H.-S.)	.	L	59	.				
Pentatomorpha													
ARADIDAE ARADINAE													
<i>Aradus depressus</i> (Fab.)	C	L	59	.	<i>Berytinus montivagus</i> (M.-D.)	.	L	.	60				
LYGAEIDAE													
ORSILLINAE NYSIINI													
<i>Nysius ericae</i> (Sch.)	C	L	.	60	GAMPSOCORINAE GAMPSOCORINI				.				
<i>Nysius huttoni</i> F.B. White	C	L	59	60	<i>Gampsocoris punctipes</i> (Germ.)	C	L	59	60				
<i>Nysius senecionis</i> (Sch.)	.	L	59	.	METACANTHINAE METATROPINI				.				
<i>Nysius thymi</i> (Wolff)	[C]	L	[59]	60	<i>Metatropis rufescens</i> (H.-S.)	C	L	59	60				
ISCHNORHYNCHINAE													
<i>Kleidocerys ericae</i> (Horv.)	C	L	59	60	STENOCEPHALIDAE				.				
<i>Kleidocerys resedae</i> (Panz.)	C	L	59	60	<i>Dicranocephalus agilis</i> (Scop.)	.	[L]	[59]	.				
CYMIDAE CYMINAE CYMINI													
<i>Cymus clavulus</i> (Fall.)	C	L	59	.	RHOPALIDAE				.				
<i>Cymus glandicolor</i> Hahn	C	L	59	60	<i>Rhopalinae RHOPALINI</i>								
<i>Cymus melanocephalus</i> Fb.	C	L	59	60	<i>Corizus hyoscyami</i> (L.)	C	L	59	60				
BLISSIDAE BLISSINAE													
<i>Ischnodemus sabuleti</i> (Fall.)	C	L	59	60	<i>Liorhynchus hyalinus</i> (Fab.)	C	.	.	.				
ARTHENEIDAE ARTHENEINAE ARTHENEINI													
<i>Chilacis typhaea</i> (Perr.)	C	L	59	60	<i>Rhopalus maculatus</i> (Fb.)	[C]	.	.	.				
HETEROGASTRIDAE HETEROGASTRINAE													
<i>Heterogaster urticae</i> (Fab.)	C	L	59	60	<i>Rhopalus subrufus</i> (Gm.)	C	L	59	60				
RHYPAROCHROMIDAE													
RHYPAROCHROMINAE DRYMINI													
<i>Drymus brunneus</i> (Sahl.)	C	L	59	60	CHOROSOMATINI				.				
<i>Drymus ryeii</i> D. & S.	.	L	.	60	<i>Chorosoma schillingi</i> (Schum.)	C	L	59	60				
<i>Drymus sylvaticus</i> (Fab.)	C	L	59	60	<i>Myrmus miriformis</i> (Fall.)	C	L	59	60				
<i>Eremocoris plebejus</i> (Fall.)	.	L	59	.	ALYDIDAE				.				
THYREOCORIDAE THYREOCORINAE													
<i>Thyreocoris scarabaeoides</i> (L.)	.	[L]	[59]	.	<i>Alydus calcaratus</i> (L.)	C	.	.	.				
ACANTHOSOMATIDAE													
ACANTHOSOMATINA													
<i>Acanthosoma haemorrhoidale</i> (L.)	C	L	59	60	COREIDAE				.				
<i>Cyphostethus tristriatus</i> (Fab.)	C	L	59	60	PSEUDOPHLOINAE PSEUDOPHLOEINI				.
